

CONTENTS

ACRONYMS	v
1. INTRODUCTION	1
1.1. Purpose and Need.....	1
1.2. Background.....	1
1.3. Related Actions	3
1.4. Management Goals and Objectives	4
1.4.1. INEEL Infrastructure Objectives.....	5
1.4.2. Air Resources Objectives	6
1.4.3. Water Resources Objectives.....	6
1.4.4. Wildlife/Habitat Resources Objectives.....	7
1.4.5. Cultural Resources Objectives.....	7
2. DESCRIPTION OF ALTERNATIVES	9
2.1. Wildland Fire Management Activities	9
2.1.1. Pre-Fire Activities	9
2.1.2. Fire Suppression Activities.....	11
2.1.3. Post-Fire Activities.....	12
2.2. Alternatives.....	13
2.2.1. Alternative 1 – Maximum Fire Protection Approach.....	13
2.2.2. Alternative 2 – Balanced Fire Protection Approach.....	13
2.2.3. Alternative 3 – Protect Infrastructure and Personnel Safety Approach.....	14
2.2.4. Alternative 4 – No Action or Traditional Fire Protection Approach.....	14
3. AFFECTED ENVIRONMENT	20
3.1. General Site and Facility Description.....	20
3.2. Air Resources	21
3.3. Water Resources.....	22
3.4. Wildlife/Habitat Resources.....	24
3.5. Cultural/Historical Resources.....	26
3.6. Areas of Previous Wildland Fire Response Impacts	27
4. ENVIRONMENTAL CONSEQUENCES	29
4.1. Alternative 1 – Maximum Fire Protection Approach.....	29
4.1.1. Air Resources	29
4.1.2. Water Resources.....	30
4.1.3. Wildlife/Habitat Resources.....	30
4.1.4. Cultural/Historical Resources.....	33
4.2. Alternative 2 – Balanced Fire Protection Approach.....	33
4.2.1. Air Resources	33
4.2.2. Water Resources.....	34
4.2.3. Wildlife/Habitat Resources.....	34
4.2.4. Cultural/Historical Resources.....	35
4.3. Alternative 3 – Protect Infrastructure and Personnel Safety Approach.....	35
4.3.1. Air Resources	35
4.3.2. Water Resources.....	35
4.3.3. Wildlife/Habitat Resources.....	35
4.3.4. Cultural/Historical Resources.....	36
4.4. Alternative 4 – No Action or Traditional Fire Protection Approach.....	36
4.4.1. Air Resources	36
4.4.2. Water Resources.....	37

4.4.3. Wildlife/Habitat Resources.....	37
4.4.4. Cultural/Historical Resources.....	38
5. COORDINATION AND CONSULTATION	48
6. PERMITS AND REGULATORY REQUIREMENTS.....	49
7. REFERENCES	52
GLOSSARY	55
APPENDIX A – VEGETATION SURVEY	56
APPENDIX B – MANAGEMENT GOALS	69
APPENDIX C – HABITAT FRAGMENTATION	75
APPENDIX D – COMMENT RESPONSE	80

FIGURES

Figure 1-1. Wildland Fires on the INEEL (1994 – 2002).....	2
Figure 3-1. Illustration showing the INEEL and site areas in southeastern Idaho.	20
Figure 3-2. Windblown sediment after a fire event	21
Figure 3-3. Illustration showing the surface water on the INEEL.....	23
Figure 3-4. Example of previous disturbance.....	28
Figure 3-5. Containment line showing larger soil “ricks” and little recovery of native perennial vegetation	28

TABLES

Table 1-1. Federal wildland fire guiding principles	5
Table 2-1. Comparison of INEEL wildland fire management strategies and actions – pre-fire, suppression, & post-fire.....	15
Table 3-1. SCAs and soil contamination levels modeled for fire and post-fire releases	23
Table 3-2. Federal and state-listed threatened, endangered, candidate or sensitive species occurring or potentially occurring on the INEEL	25
Table 4-1. Summary of environmental impacts and across alternatives for wildland fire management activities on air, water, wildlife/habitat, and cultural/historical resources of the INEEL.....	38
Table 4-2. Evaluation matrix for natural resource objectives across alternatives – a relative comparison	45
